Ryan put together a strong deck that summarizes the key points.

Key takeaway is about the classification of digital assets as a commodity vs. security/ICO and the correct messaging around that.

Fyi—Session recording for reference.

Patrick, this is valuable context for XRP messaging, especially since it's front and center.

[REDACTED] I've transferred ownership for both meeting today to you. You can add a new BJ link with you as moderator (that way, this mtg can be recorded :-).

Hi [REDACTED]

Would it be possible to record this season using BJ?

Today at 1pm we have an XRP session in Ricardo. Let me know :-)

You're the best!

XRP Team Discussion - ICOs: Securities and Commodities analysis

ICOs are increasingly popular and raise many regulatory questions. While XRP is very different from an ICO, Ryan and AoG would like to share our research with this team, explaining the importance of how we talk about XRP.

This will be a timely conversation given our upcoming focus on XRP.

Thanks Team!
